- Warranty does not cover damages resulting from negligence or mishandling of Product, including but not limited to physical abuse, chemical exposure, high heat exposure, thermal shock, and outdoor exposure.
- Warranty does not cover any services, products or materials produced by other manufacturers, including but not limited to plumbing, electrical work, tile work, cabinets, and sinks.
- Warranty does not cover seams performance and appearance.
- Warranty does not cover damages resulting from Acts of God, vandalism or accidents.

Making a Claim:

- To make a claim under this Warranty, the owner must complete and submit the Warranty Claim Form at www.hendrixindustries.com/warrantyclaim within 30 days of defect discovery.
- In order for Hendrix to respond to any Warranty claims, Hendrix's authorized agents must be permitted sufficient time and opportunity to inspect and evaluate the Product prior to responding to claim.
- Texas Law governs the interpretation and enforcement of this Warranty, subject to Hendrix's terms and conditions at www.hendrixindustries.com/terms&conditions

Warnings and Legal Notices:

WARNING: Although our products themselves do not pose a risk to end consumers once installed, it is during manufacturing and fabrication that the tradesmen performing these tasks are at risk of being exposed to Respirable Crystalline Silica (RCS1) containing dust.

CAUTION: SILICA DUST HARMFUL IF INHALED.

Respirable Crystalline Silica Dust Hazard: TechnoQuartz slabs contain crystalline silica. Stone handling processes including, but not limited to, cutting, abrading, grinding, drilling, etc. of any silica-containing stone products may create respirable dust particles containing crystalline silica, which is an inhalation hazard. Workers who inhale respirable crystalline silica dust are at an increased risk of developing serious respiratory or lung-related diseases including, but not limited to, silicosis, lung cancer, and other health effects including kidney disease.

Exposure to silica dust from cutting, grinding, or polishing can cause acute lung injury, silicosis, or cancer. Wear proper personal respiratory protection. Always use the recommended wet-cutting methods.

- NO DRY CUTTING, BORING AND DRILLING
